## GROWERS GET 48 HOURS NOTICE

Mexicans Protest Naming  
Of Strathman to Serve  
On Wage Board

Another strike ultimatum stared Orange county in the face today. Twenty-five hundred Mexican vegetable workers will desert the fields Saturday unless their demands are met, it was announced by Lucas Lucio, local consular representative.

It isn't a question of wages this time.

Lucio said the men will strike unless Japanese growers agree not to name Stuart Strathman, Placencia, as their member of an arbitration board now being formed.

"Attempt to Dictate"

S. Murakami, representing the growers, said they regard this ultimatum as an attempt by the Mexicans to dictate to them whom they shall name as their representative on the board. Murakami said he does not believe this is fair and predicted the growers will insist that Strathman be their representative.

Lucio said the growers have been given 48 hours in which to agree not to name Strathman. If the demand is not met by Friday night, the strike will be called at a mass meeting scheduled for that time, he said.

Lucio also explained that when, on Aug. 29, the workers agreed to selection of the arbitration board, was understood. Strathman would not be named by the growers. Strathman has served on the previous board, whose term expired Sept. 1. The other members were Dr. Graham Hunter of Fullerton and Thomas Barker, deputy state labor commissioner.

Parley Deadlocked

On Aug. 29 the two groups met and agreed to name new members on the board, with Barker remaining in office. Lucio said each group was to name two candidates and that at last night's meeting in Santa Ana two board members (Please Turn to Page 2, Col. 5)

## Bourbons Almost Hear Merriam

SAN DIEGO, (AP)—Surprised when California's Republican governor, Frank F. Merriam, unwittingly strolled into their meeting, 200 Democrats asked him to make a speech.

"It's a pleasure to see you all," the governor laughingly declared, "but I'm not going to make a political speech." He left to address county assessors in the next room.

## Ah, Ha! Fritz Menaces Joe Palooka!

A new menace loomed in The Journal Comical election today. It was the women's votes. The ladies got together over night and boosted their favorite Fritz Ritz into a tie with hard-hitting Joe Palooka for first place in total number of votes received.

Fritz came from behind to catch the world champion boxer. As the polls closed yesterday she was four votes behind. Overnight she caught up, and unless all the rugged he-man fellows who read The Journal funny paper get together and help out their candidate, Fritz is going to pass him.

## Tomato Babies St. Croix Birth Rate Grows

WASHINGTON, (AP)—The division of territories and insular affairs believes it has discovered the secret of a population increase on St. Croix, one of the Virgin Islands. The cause, in brief, is tomatoes.

Until a couple of years ago the natives of this small island lived principally on cornmeal and fish, with occasional side dishes of sugar cane.

The birth rate rocked along, the division explained, at about the same rate for years, never keeping pace with some of the other islands.

Then came the tomato.

Convinced that something besides sugar cane could be grown on St. Croix, the government introduced tomato plants.

Working with the tomato turned out to be a tougher job than tending cane, and the natives got hungry in the fields. They turned to the juicy tomatoes about them.

Pretty soon everybody was eating tomatoes. At the same time the birth rate commenced an upward swing. The division says St. Croix has now about 12,000 natives, tomatoes are flourishing and everyone seems happier.

The bureau of home economics said tomatoes could logically be the reason for the increase in babies. Tomatoes—experts explained—contain vitamins C, A and B, as well as minerals which if consumed in large quantities would result in a considerable general improvement.

## MINE BLAST NAB SUSPECT KILLS FOUR IN COUNTY

Fears Felt For 6 More  
Trapped By 400-Foot  
Wall of Debris

LOGAN, W. Va. (AP)—The number of known dead from an explosion in the MacBeth mine rose to four today with the recovery of two bodies by rescuers digging desperately through a 400-foot wall of slate behind which six more are trapped.

The blast killed two men outright and spread deadly after-damp fumes through the workings, eight miles south of this mountain town.

After several hours digging, the rescuers came upon the bodies of the other two, lying almost buried in muck and debris which filled the shaft.

E. H. Skaggs, tipple foreman for the Hutchinson Coal Company, owners of the property, said:

"It's only a matter of a few hours now until we know whether the others in the shaft are dead or not. We've got about 150 more feet of digging to do before we can reach them."

HOLLYWOOD, (AP)—Buck Jones' racing yacht, Sartaria, stranded 1400 miles out in the Pacific, waited today with disabled motors and virtually no drinking water for help to arrive.

A radio-telephone message from the captain and seven crew members last night informed Mrs. Jones the Sartaria was bucking a gale which made sails virtually useless and was 400 miles north of the regular steamship route to Hawaii.

characters has received at least one vote in the congressional race, and they're all liable to catch up to the leaders.

Buck Rogers hasn't got going yet in the campaign for supervisor, where Cap Stubbs is leading by one vote. Fritz Ritz, Joe Palooka and Modest Maidens are coming along right behind Cap, with Dick Dare on their heels. Behind them the field is strung out.

Be Sure to Vote

Right now is the time to get your vote in. Get together, cast a vote for your favorite, and get all your friends to vote too. Hand out a ballot and let them vote for the comic strip they like best. You'll find the ballot on page 2.

## USE GRENADES IN BLASTING DEFENDERS

Anarchists Take Over  
Fight As Socialists  
Propose Surrender

By ROBERT B. PARKER, Jr.

(Copyright, 1936, by Associated Press)

BEHOBIA, France. — A spearhead of Moors pointed the Fascist rebel attack against Spanish Behobia today with Socialist government soldiers fighting them hand to hand in the streets.

Five armored cars led troops up the river road into the town and 2000 rebel infantrymen followed through fields on both sides of the road and along the flatlands beside the river.

Moors in Single File

The Moors ran single file along the river bank with their heads bent low, heading for the town of Trun just beyond Behobia.

All of the rebel troops were raked by savage machine gun fire from entrenched Socialists.

But it was several minutes before government riflemen spotted the Moorish soldiers who carried rifles strapped to their backs and a grenade clutched in each hand.

Grenades Into Windows

The grenades were hurled through windows into houses where government machine gunners hid.

Suddenly the government riflemen sighted the column of Moorish troops. A single shot—and a single Moor fell dead.

His comrades veered around the body and ran on into the town.

A dozen Moors rushed the first house by the side of the road and disappeared inside despite a machine gun fire.

## PLANE CRASH KILLS SIX

SEWARD, Alaska. (AP)—Airplane Pilot Al Horning flew here with word the bodies of six persons were found in Pilot Steve Mills' wrecked plane on the Kenai peninsula. He took off at once with four men, saying he would return today to get additional help in carrying the bodies out of the wilderness.

Mills and his five passengers, who left Anchorage Sunday for a day's fishing on the Russian river, were found with the plane on a 2000-foot ridge near Siliak lake, between here and Anchorage.

The passengers were Mr. and Mrs. George Maricle, Mr. and Mrs. Lawrence David and Augustus Teik, all of Anchorage.

Aerial searches located Mills' ship, its wings and pontoons crushed, yesterday and, unable to land near the ship, dropped to a lake four miles away where they left an advance party of three men, who pushed through rugged country to the plane while the pilot returned to Anchorage for more aid.

## F.D.R. Meets Alf In Des Moines

By WILLIAM L. BEALE

DES MOINES, Iowa. (AP)—President Roosevelt and Alf M. Landon met today in the office of Gov. Clyde L. Herring of Iowa—an extraordinary face-to-face encounter between two presidential opponents. The national drought problem brought them together. Through cheering crowds that gave Iowa's capital a holiday spirit, the Democratic and Republican contestants drove to the gold-domed capitol. Mr. Roosevelt was the first to take the route, motoring in an open car from the special train in which he has been touring drought areas. He arrived at noon.

Landon Arrives Later

Landon arrived an hour and fifteen minutes later by auto from Topeka. He stopped at Leon, Iowa, for a shave, was met on the outskirts of Des Moines by a motorcycle escort of six patrolmen and drove directly to the capitol in the same sedan in which he made the trip.

A buffet luncheon was served in Herring's office where the chief executive and Landon shook hands for the first time since 1933. Afterward, the two were scheduled to talk about the drought and means of meeting its havoc to farm areas.

Lunches With Governors

A few minutes after his train pulled in, the President was driven straight to the 53-year-old, gold-domed state house to wait the arrival of Landon and the governors of Nebraska, Missouri and Oklahoma for luncheon preliminary to the series of conferences looking to adoption of a non-political program to combat future prolonged dry spells.

Governor Philip La Follette of Wisconsin was due in Des Moines later in the day for the Roosevelt dinner about his special relief program. Landon and the governors of Nebraska, Missouri and Oklahoma were expected to make the demand for homes even greater in the next few weeks.

Added to this is the announcement that when the county flood control project work is commenced, about 150 army engineers and their families will seek homes here. Real estate agents frankly admitted they could not supply housing for that many people.

Builders Named

Four of the new homes are to be constructed on Louise street. Owners are H. C. Head, planning a \$3500 residence; E. R. Lepper, planning a \$4831 residence; James A. Musick, planning a \$4000 home, and C. S. Burrow, planning a \$5000 home.

Other new home permits were issued to Jules Markel for a \$1500 home at 1429 South Main; J. R. Sandstrom, for a \$5000 residence at 1409 Martha Lane, and to Duke Fenley for a \$3000 residence at 1408 South Ross street.

Indications were that September building will show even greater growth than August, which was the highest month since March, 1935, when the city hall construction boosted the total.

## Harry Westover Is Locked Out Of His Own Home

They've been locking Harry Westover out of his home.

For more than a week the local attorney has been living at the Y. M. C. A. Now and then he goes back to his residence at 152 East Fourth street, but no one shows much enthusiasm about letting him in. So he goes away again.

This has been going on ever since election night when Westover won the Democratic nomination for state senator. He went home after listening to returns and found himself locked out. It wasn't because he's gone into politics. His son, Harry Equen Westover, 4, had been exposed to infantile paralysis. The health department established a quarantine. But no symptoms have developed. Westover expects to rejoice his family next week.

They had, however, been reported off the western Irish coast 15 hours and 40 minutes after their takeoff from Floyd Bennett field, Brooklyn, yesterday afternoon.

The first word they were over Ireland came at 1:17 p. m. (7-17 a. m., eastern standard time) from Dingle Bay, on the southwestern tip of the Shamrock isle.

A thousand spectators had waited under heavy skies at Croydon for some sign of the plane, which ran into hard rains at the eastern end of its journey.

## FR. COUGHLIN SPEAKS OUT

Says Roosevelt Thinks  
He's a 'Dictator'

Also Raps Landon

NEW YORK, (AP)—The Rev. Charles E. Coughlin, Detroit radio priest, said today that President Roosevelt "thinks he is a dictator, and occasionally acts that way—but he's just the President."

Here to greet Bishop Michael J. Gallagher on his return from Rome today, Father Coughlin made his remarks at an interview following his meeting with the Michigan prelate.

On shipboard Bishop Gallagher had said that Father Coughlin was free to continue his political activities and urged the radio priest's followers to continue to rally behind him.

At the later press conference, Father Coughlin was asked what he thought of the President's tour of the drought sections.

"The President visited Toledo to investigate the flood," he said, "and they haven't had a flood there in the last 150 years."

"What about Landon?" he was asked.

"Landon wants a good wage—everybody wanted that since the beginning of the world—but Landon hasn't offered one constructive suggestion as to how American workers can achieve that end."

NORWAY KEEPS TROTSKY

OSLO, Norway. (AP)—Norway tonight formally rejected Russia's demand for the expulsion of the exiled Bolshevik leader Leon Trotsky.

## LACK OF GAS FORCES PAIR TO LAND

Richman And Merrill Safe  
After Speedy Hop  
Over Atlantic

(Copyright, 1936, by Associated Press)

LLWYNCELYN, Carmarthenshire, South Wales.—Harry Richman and Dick Merrill, American airmen out for a round trip, Atlantic-spanning speed test, landed in a South Wales field today, out of gasoline but safe.

Flying "about 11,000 feet high all the way," the night club owner and actor from New York and his veteran pilot sped across the Atlantic from New York in less than 16 hours to outshine the speed feats of an imposing list of ocean pilots.

"A Comfy Trip"

"It was a comfy trip," said the sleek-haired Richman, not a whit perturbed by landing 175 miles short of his Croydon Airdrome goal. "We are not going to fly back to America right away."

Unhurt and with their powerful, low-wing monoplane, the "Lady Peace," undamaged, the Americans came down in a field near here at around 4:15 p. m. (10:15 a. m., eastern standard time), after flying about 3300 miles in approximately 18 hours and 38 minutes.

CLAIM HYNES MAN ADMITS ATTACK

Is Arrested After S. A. Boy Dies As Result Of Beating

As arrangements were being completed for holding an inquest into the death of 19-year-old Pedro Rojas, who died at Orange county hospital yesterday morning from the effects of a beating received Sunday night, Los Angeles police today reported the arrest of a Hynes man who they say has admitted the assault on the Mexican youth. They still are seeking a second man said to have been present. The man said to have admitted attacking the Santa Ana boy gave his name as Hutchinson, and according to meager reports at the sheriff's office, lives next door to a Hynes service station where the fatal fight occurred. A companion of Rojas on Sunday night, John Martinez, 21, of Orange, told police he and Rojas attempted to gain entrance to a service station restroom. When they found it locked, he said, they called to the station attendant to open it, and then walked out behind some parked cars, where they were attacked by "three or four men."

Three Men Attack Ex-film Beauty

LOS ANGELES, (AP)—A former screen bathing beauty's story of a night of terror led today to the detention of three men on suspicion of kidnapping and criminal assault. Marvel Rea, 33, blonde who once played in silent films, staggered into the Compton police station at dawn and said she had been seized and attacked at midnight by a hoodlum trio riding in a large red truck. "They offered to drive me home and I refused. Then they forced me to go with them," she sobbed. The truck was driven into a grove in a lonely section of South Los Angeles. While she screamed, Miss Rea declared, the men choked her and threw her to the ground, where her body was cut on broken bottles. They left her in a semi-conscious condition. Flashed a partial description of the truck, radio patrolmen overtook a vehicle several miles away and placed in custody Harvey Zike, 29, Oxnard rancher; Dan Bailey, 23, and Elwood Gidney, 22. All three denied knowledge of the alleged attack.

Six-day Barber Law Ruled Void

SAN FRANCISCO, (AP)—Barbers who wish to keep their shops open seven days a week may do so hereafter without violating the California six-day barber law. The supreme court yesterday ruled the law unconstitutional, declaring it was "discriminatory." The ruling was made when Manie Scarrano, a barber arrested for operating a shop on Sunday, was granted a writ of habeas corpus. The court said that "a law which singles out a single profession or calling for regulation is special legislation and is repugnant to the federal and state constitutions."

Faces Trial for Liquor Theft

Accused of stealing a bottle of whiskey and a can of beer from a liquor truck belonging to Frank Musselman on Aug. 29, Chris Gallardo, Santa Ana, was bound over to superior court today by Justice of the Peace Kenneth E. Morrison. Gallardo, who is accused of stealing the liquor while the truck was parked in front of the Los Palmeros cafe, 2000 West Fifth street, will appear in superior court for arraignment Sept. 11. Bail was set at \$2500. The charge against him is that of petty theft with a prior conviction, a felony.

DEATH DRIVER IS SCORED

"Jose Maese was so drunk on July 25 he shouldn't have gone near a car. He couldn't even stand!" That was the testimony of Dr. James Farrage, Santa Ana, with which the state opened its case against Maese today in superior court. He is charged with manslaughter as the result of the death of 4-year-old Cecil Ray Trujillo, Delhi, who was crushed beneath the wheels of Maese's car July 25. Officers who testified following Dr. Farrage said Maese had backed his car into the Trujillo house at 402 Adams street, Delhi, crushing the Mexican boy against the side of the house. The boy died of hemorrhage 24 hours after being taken to the county hospital, suffering with a fractured leg and other cuts and bruises. The case is being tried before Superior Judge H. G. Ames, without a jury. N. D. Meyer is representing Maese. Deputy District Attorney Clarence Sprague is prosecuting. Witnesses called by the prosecution during the morning session today included Dr. Farrage, Dr. L. E. Wilson of the county hospital, Motorcycle Officer George G. Boyd and Sergeant N. C. Nelson of Santa Ana police.

MORE ABOUT SPAIN

(Continued From Page 1) chine gun trained directly on them from an upper window. And Moore's Advance Thirty seconds later the gun stopped firing and the Moors reappeared to advance to the next government post. They approached the second house through an orchard, dodging from tree to tree, while Carlisle moved along the other side of the road, partly hidden by growing corn. Fifty feet from the house, the Moors tossed hand grenades through windows. Legs, Arms Blown Off When the smoke cleared, government gunners were still at their posts, but some of them hung half out of the windows, with their legs and arms blown off. Anarchists were in charge of the desperate government defenses, and until the Moors were thrown against them they were able to block the rebel advance. Soon after the advance started the rebels opened fire on the first houses with trench mortars. Armored cars moved slowly forward, sweeping the road with heavy machine gun fire. Priest Chants Rites One house was taken after the troops had thrown more than 20 grenades through the upper windows. Rebel infantrymen constantly poured from concentration points to follow their leaders. During a lull in the fighting, the sound of a priest chanting the last rites for the dying echoed over the river. Through field glasses he could be seen bending over the blue shirted Fascists, and the khaki-uniformed Carlisle lying in an open shack behind a burned building beside the river. Spies were active on both sides correcting artillery fire and surveying enemy positions. Children Swim Unconcerned Behind the government posts in Behobia, children swam in the Bidasoa unconcerned over the bullets churning the water nearby to a foam. Anarchists took over command of the government forces after Socialist leaders proposed tentative surrender. Sixty Fascist hostages were marched to a cemetery at Irun, reports reaching here said, and shot. One six-inch shell scored a direct hit on a rebel machine gun crew and screams of the wounded echoed 500 yards to the spot in France where this correspondent stood. UNION PARTY RUNNING IN 40 STATES

(Copyright, 1936, by Associated Press) CHICAGO.—The Union party, which entered the presidential campaign less than five months before the election, appeared today to be in a position to put its candidates' names on the printed ballots of 40 states. It seemed unlikely, however, that the name of the Union party could appear with the candidates in more than 31 states. A nation-wide survey showed the two and a half months' old campaign in behalf of William Lemke, North Dakota congressman seeking the presidency, and Thomas C. O'Brien, Boston lawyer and candidate for vice president, in this position. Here's the lineup In eight states the names of the candidates will not be printed on the ballot, and the party either will not campaign in them or will seek write-ins. There are eight other states in which the party has filed, seven of them under the Union party name. In 32 states the party is preparing to file, either under its own name, in affiliation with another party, or as a slate of independent candidates. No "Union" Label The name of the Union party as a label will not be used in 17 states, although in possibly half a dozen of these its candidates will appear under some party label. In nine states, campaigns for state offices or seats in congress will be combined with the national campaign. The time set for filing has not arrived in six states. The deadline for filing has passed in nine states. List of States The eight states in which the Union party has filed are Alabama, Arizona, Idaho, Iowa, Massachusetts, Montana, Oregon and Texas. The eight states in which the candidates' names will not be on the ballot are Florida, Kansas, Maryland, Nevada, New Jersey, North Carolina, Oklahoma and West Virginia. There is a total electoral vote of 456 in the 48 states in which Union party candidates' names have a possibility of being on the ballot. Election requires 266 votes.

HUNT KEEPS UP FOR SLAYERS

YREKA, (AP)—Weary manhunters plodded over remote mountain trails today in relentless search for John H. and Coke T. Britz, named by a coroner's jury as the slayers of three men. But although the hunt continued, leaders admitted that it would not be difficult for the brothers to remain hidden in the wilderness until snow drives them out. A coroner's jury last night heard the story of events leading up to the Sunday morning gun fight at Horse Creek in which two peace officers and a vacationer were killed; heard an eyewitness account of the fight; and then returned a verdict that Deputy Sheriff Martin Lange, Constable Joseph Clark, and Fred Seaborn, former naval officer, were fatally shot in the back "by John and Coke Britz with intent to commit murder."

DISCUSS SOCIAL CREDIT PLAN

The social credit plan proposed by Major C. H. Douglas, British economist, was discussed Tuesday evening by Ernest Wooster at weekly meeting of the Forum for Political and Economic Education at the junior college. Two major points of the Douglas plan center on a proposed national discount, in the form of lowered retail prices, and a national dividend, Wooster said. As yet, no government has put the plan as proposed by Douglas into effect, so that the operation of his theory is as yet untested. The national dividend would be paid, according to the plan, from unpaid surpluses. Sam Hurwitz, Clem Knox and others in the audience participated in a period of questions and discussions from the floor. W. H. (Ted) Blanding, chairman, presided.

Boy Sues School Over Broken Leg

Because a baseball backstop being moved to a new location on the Loara school grounds fell on him, breaking his leg and causing bruises and contusions, Will Allen Jeffress, 15, brought suit through his father against the school today in superior court for \$2500. The accident was said to have occurred April 15, 1936, while the boy was a student at the school. He said the backstop was placed against a tree in a negligent manner, so that it fell over on him as he stood near it. In a separate action his father, Robert Jeffress, asks \$500 hospitalization expenses incurred in his son's behalf. They are represented by Stephen F. Gallagher, Anaheim attorney. Intervention spread the Spanish struggle to the left and right into the rest of Europe.

4-H YOUTHS READY FOR THRILL

"The thrill of their lives" today awaited 30 boys and girls of Orange county 4-H clubs who will leave Sept. 9, for a five-day trip to the state fair at Sacramento and the 21st annual 4-H convention at Davis. Most of the group have been voted the trip as awards for excellence in 4-H work during the year, with their clubs paying \$10 of the \$1250 which will be the total cost per youth attending. Special trains will carry the local group all the way to Sacramento and Davis, where they will meet with 1000 others for the convention. See Chinatown Gov. Frank F. Merriam and other state officials will greet the boys and girls at the convention. While at Davis they will be conducted about the campus of the College of Agriculture of the University of California, where demonstrations will be given in animal husbandry, horticulture, home economics, and other subjects allied with the club work. On their way home the group will stop at San Francisco to view the new bay bridge and visit Chinatown with a police escort. Special arrangements were made with the Southern Pacific railroad to make the trip possible. The \$1250 fee includes railroad fare, berth, and camp at Davis, as well as all meals. A feature of the convention will be an amateur broadcast contest in which Edward W. Mahman and Bobby Riehl of Olive and Betty Runyan of Cypress will take part. Seniors in Charge Tustin 4-H club is sending 10 delegates, using the \$100 the club won for first place in a national canning contest, and \$27.50 won for first place at the Los Angeles County fair last year. Senior 4-H members—those who are older and have had several years experience in club work—will be in charge of the camp and convention. Membership in the club is limited to boys and girls between the ages of 10 and 21 years. The Orange county delegation will be supervised by Mrs. G. D. Grisett, Mrs. Anna Linnartz, J. D. Rossier, R. E. Launer and Assistant Farm Advisor Ross E. Crane.

Merriam Defends Operation Cost

SAN DIEGO, (AP)—A little more than one-eighth of the state budget is spent for operation of its departments, bureaus and commissions, Gov. Frank F. Merriam said here in an address directed at critics of his administration. The state executive was principal speaker at the annual convention of county assessors, and Merriam took occasion to answer those who charge his bureaus and commissions are "tax-eating." Governor Merriam said the cost of operating the state is only \$27,000,000 annually, while the state budget for the biennium is \$431,000,000. He pointed out that \$217,000,000 is returned to counties without a charge for collection; \$88,000,000 is spent by self-maintaining institutions; \$48,000,000 budgeted for relief; \$17,000,000 for interest and sinking funds on voted bonds; and \$6,000,000 for a badly-needed building program. Meeting jointly with members of the women's auxiliary, the chapter had as guests E. C. Spencer, senior vice commander of the state D. A. V. department, and Irvin J. Landis, state adjutant, Long Beach. Spencer presented to Virgil Marr a silver loving cup, awarded him as the individual who brought the greatest number of members into the organization during the past year. Landis reported on the national D. A. V. convention held in Milwaukee, Wis. Sept. 16 was set as date of elections, with installation of new officers to take place Sept. 30. Nominated with Cleary were Don Murphy, for senior vice commander; Ashley Knowlton and Joseph De Sutter, junior vice commander; Earl B. Hawks and Frank Wolter, treasurer; V. L. Brown, state executive committeeman. Nominees for chapter executive committees from Orange county districts are: Virgil Marr and Frank Wolter, Santa Ana; Ellis Gaddis and A. F. MORE ABOUT FLIERS

(Continued From Page 1) port communications office jangled. It was Richman, calling from Llynwcelyn. Reached at this tiny village, later, Richman declared: "The plane ran beautifully. We didn't see the Atlantic for more than an hour at a time. All the way, we flew at about 11,000 feet. Everything went according to plans up to the end, except— Took Nose Dive "Half way across the plane went into a steep nose dive. We both tumbled out of our seats. That certainly was a scare. "We had to struggle hard for a minute or two to regain control. It seemed an age before we did." The plane, Richman said, must have averaged more than 200 miles an hour while it was actually over the Atlantic, at times doing 250. Radio Goes Bad He disclosed "the reason you didn't hear us when we got near England was because our radio went out of commission while we were trying to talk to London. "We were circling around an hour and a half before we could find a suitable landing place. There seemed to be cattle every place." Back at Croydon, Capt. Jimmy Town, Canadian friend of Merrill, who had been looking for the fliers to lead them into port, loaded 100 gallons of fuel in two-gallon tins into his plane and took off for Bristol, just as another plane piloted by Capt. Leslie Jackson left with 50 gallons of fuel in an attempt to land beside the "Lady Peace." To Continue Hop The transatlantic plane will be given the 50 gallons and then flown to Bristol to take on the additional supply for the rest of the flight to Croydon. The great circle route they followed placed their estimated distance from Floyd Bennett to London at 3466 miles. Their longest stretch over water was 1992 miles from Harbor Grace, Newfoundland, to Lough, Irish Free State. The wings of the plane were loaded with thousands of table tennis balls to provide buoyancy in the event they were forced down at sea.

SOCIAL TOPICS TO BE PROBED

Closing a series of Wednesday night book reviews last night with a resume by Mrs. Estelle Card Beeman of John Steinbeck's labor problem novel, "In Dubious Battle," the congregation of the Unitarian church, headed by the Rev. Julius Budlong, has arranged a series of discussions on social problems of Orange county for the early fall weeks, with "The Welfare of Our County" as the general topic. The new program will start Sept. 9, with a talk by the Rev. J. Wahl, one of the recreational directors of the CCC camp at El Toro, who will talk on "The CCC Camps As a Solution of the Unemployment problem." Succeeding Wednesday night topics will be "A General Survey of Welfare Problems," by Byron Curry, county welfare department head; "The Problem of Poverty," by Miss K. Jeffries, the family visitor of the welfare department; "Work for the Blind," by Mrs. Ada Eland, case supervisor of the department; and "Why the Community Chest?" by a Chest leader. Other county problems will be taken up later in the winter, if the series is well received, Miss Budlong said, including the subjects of roads, law enforcement, and child delinquency.

TO HOLD NOSE AS HE VOTES

Prof. W. T. Ness of Pomona college told the Lions club at noon today he is going to vote the Republican ticket but "I'll be inclined to hold my nose when I do it." His remarks were made in connection with a talk on "Recent Anti-Inflation Measures." Professor Ness said "It seems to take the Democrats to put through progressive legislation, but it requires the Republicans to administer it." The club is expecting about 50 members to attend the division convention at Riverside, Oct. 8, to 10, it was announced. Plans also were outlined for the dahlia show Sept. 30.

ADVISES CLUB MEMBERS TO REGISTER

Supervisor W. C. Jerome today called attention of Breakfast club members to the importance of registration for voting. It is necessary to be in the state one year, the county 90 days, and the precinct 40 days in order to cast ballot he said. The final date for registration is Sept. 24. Absentee voters can obtain ballot on application to the county clerk, up to Oct. 25. Jerome cited several instances where the absentee vote had changed an election result, and that a number of acquaintances had failed in their attempt to vote on account of not being properly registered. He stressed the importance of exercising this duty of citizenship. The entertainment part of the Breakfast club meeting included selections of Oscar Stock, Marion Madison and Cleo Hibbs. President J. D. Cookman gave an encouraging talk to the Breakfasters along the lines of fellowship and civic obligation. He appointed an initiation committee consisting of Jesse Elliott, Hunter Leach and "Skinny" Skirvin to arrange for a ceremony in the near future.

Merriam Defends Operation Cost

SAN DIEGO, (AP)—A little more than one-eighth of the state budget is spent for operation of its departments, bureaus and commissions, Gov. Frank F. Merriam said here in an address directed at critics of his administration. The state executive was principal speaker at the annual convention of county assessors, and Merriam took occasion to answer those who charge his bureaus and commissions are "tax-eating." Governor Merriam said the cost of operating the state is only \$27,000,000 annually, while the state budget for the biennium is \$431,000,000. MORE ABOUT STRIKE

(Continued From Page 1) were to be picked from the four candidates. However, when the growers insisted on naming Strathman, he said, the workers refused to continue negotiations. It had been agreed that both sides would abide by any wage award made by the new board. Workers had asked 30 cents an hour and growers had offered 25 cents. A strike, to have started Tuesday, was called off. Now the wage question has been shoved aside for the present and the workers are threatening to strike unless Strathman is eliminated from consideration on the board. Seeks Compromise Lucio said the Mexican workers object to Strathman because of "the position he took since the strike of 1934-1935. They don't want him connected with labor disputes." Muroka said that after last night's meeting he tried to effect a compromise with Lucio, without success. Muroka said he told Lucio he didn't believe the workers have a right to strike just because they "don't like Strathman."

Growers Will Meet Tonight

Strathman said today he resigned from the board eight or nine months ago, but when growers asked him to continue serving, he agreed to do so, with the understanding he would not serve another term. "I had not wanted to allow my name to be used as a candidate,"

## CAFE AT SERRA IS HELD UP

An unidentified Mexican who staged a single-handed holdup of Maria's cafe at Serra at about 4 a. m. today escaped with approximately \$20 in cash, according to a story told police by Julian Velasquez, night attendant at the cafe, who was on duty alone.

Velasquez said the man was about 35 years old and five feet, five inches tall. He escaped on foot.

Velasquez did not report the hold-up to police until 6:30 a. m., when he called the San Clemente department. The sheriff's office here was called at 7:30 a. m. and Deputies Tom Murphree and A. W. Fullerton were sent to Serra to investigate.

Get a headache yesterday after reading all those big government deficit figures? So did I! Seems our Democratic United States joyfully announces that this year to \$2,096,996,300, which is still quite a big figure to write with red ink, for just one year's business!

Republican California is no piker either when it comes to the red ink. It has a deficit of \$40,000,000.

But brother, listen to this: Nebraska, instead of being in the hole, has a problem of a different color—in ink. It has too much money! State Treasurer George E. Hall recently reported he had too much money on hand, due to the fact that the state's cash balance had increased from \$8,147,507 to over \$9,627,000. Banks don't want the money, he says, and one bank even asked him to withdraw a state checking account!

Wonder if Hall would consider running for president of the United States, or governor of California? Either place could give him a chance to really show his stuff! Out of the hole with Hall!

## Townsend News, Views

By WALTER R. ROBB

(This is a non-political, non-partisan column, dealing in Townsend news and news, and written by a prominent Townsend leader. Any opinions which are expressed herein are not necessarily those of The Journal.)

Somebody has said that "change is the law of progress" and the statement seems to apply to the Townsend organization in California, particularly of the southern portion of it. Rumors are current that Sheridan Downey will be stepping out of the organization and that Frank Arbuckle, western regional director and recent defeated Townsend endorsed congressional candidate in the 16th district, may be transferred to other territory. Ted E. Felt, former state area manager and lately state organizer for the 12th and 19th congressional districts is being placed in charge of the 16th district. Rumors are also current that J. H. Walsh of Costa Mesa will be appointed as the Orange county organizer and that Herbert F. Kenny of Santa Ana will be appointed to the same position in Riverside county. Definite information is not yet obtainable but rumors seem to be well substantiated.

Dr. Francis E. Townsend is again on the western coast and will join up with Edward J. Margett, state manager for California as headline speakers at the big Townsend mass meeting at the Olympic auditorium in Los Angeles at 7:30 next Friday evening. It is being whispered around that there is to be some real fireworks in this meeting. That the real facts concerning the dismissal of regional directors of Dr. Clinton B. Wunder and Jack Kiefer will be revealed and that the facts related won't be particularly complimentary to either of the gentlemen. The Townsends have faith in the integrity and good purposes of Dr. Townsend and that he will fully vindicate himself on the stand Friday night as having used good judgment in his divorcing of these two men from the Townsend organization. At any rate the audience that night will include many from Orange county Townsends who will attend to hear the truth.

More interesting news for the Townsends is that Harold P. Thorsen, the Democratic congressional candidate from San Bernardino county who was defeated in the recent primary election by Harry R. Sheppard, the Townsend endorsed candidate, has been annexed by the latter gentleman to campaign for him until the November election. Mr. Thorsen appeared before the Orange County Association of Townsend clubs on Tuesday evening and made public announcement of his support of Mr. Sheppard's candidacy.

Another Southern California state office sponsored Townsend mass meeting is scheduled for next Sunday evening, Sept. 6, in the Roosevelt hotel at Highland avenue and Erwin Hill, San Bernardino. This will interest all Townsend club members of Orange, Riverside and San Bernardino counties. 6:30 p. m. is the hour set for the meeting to begin.

The letters of appreciation for this column begin to reach my desk. The first to come was from Robert E. Thomas of the El Toro Townsend club. Your suggestion to the writer, Mr. Thomas, has been noted and is good and possibly before this appears in print I will be down to talk it over with you. Any suggestions from those interested will be gratefully received. They may not always be followed but they will at least receive consideration. The El Toro Townsend club claims in its membership some mighty fine people whom the writer includes among his friends. He will appreciate hearing from more of the El Toro Townsends.

I note that the official count of the primary vote in Orange county reveals that less than 48 per cent of the registered voters used their franchise privilege. My what a shameful percentage there would have been if it hadn't been for the interest of the Townsends. Calvin Coolidge once said concerning the indifference of Americans toward their right to ballot, "When

the Rev. O. Scott McFarland, Mrs. McFarland and their daughter, Alice Claire, returned Friday from a week's outing in Yosemite national park. Their elder daughter, Mary Lou, made the trip north with them and enrolled at the University of California.

Glen Brown is an appendectomy patient at a local hospital. He was suddenly stricken while attending a theater performance. His condition is reported satisfactory.

Mrs. C. E. Skirvin and grandson, Clayton III, spend last Tuesday with Mrs. Skirvin's sister, Mrs. Josephine Farber, in Long Beach.

Mr. and Mrs. Paul Tiernan have returned from a several weeks' tour into the Northwest, which included Vancouver. They contemplate making their home in Long Beach.

Mr. and Mrs. A. L. Jacques, 501 East Seventeenth street, are in Yosemite valley for a two-weeks vacation.

P. L. Briney, 626 North Ross street, returned home Monday after a vacation in the East since June 16, when he went by train to his former home in western Colorado and thence to Atwood, Kan., for a five-week visit with his brothers. He made short visits in Abilene and Topeka, Kan., and in Nebraska, and a longer stay in Iowa with cousins and old school friends.

Mr. and Mrs. J. Carnett, Oklahoma City, have been visiting with their son, Charles Carnett, at the Lawrence Coffman home on North Main street, for several weeks, accompanied by their daughter, Maxine, and by Mrs. Carnett's sister, Mrs. Burns. Charles Carnett is associated with his uncle, Mr. Coffman, in the Washington Cleaners here.

W. J. Stauffer, manager of the local branch of William Caxton, western regional director and recent defeated Townsend endorsed congressional candidate in the 16th district, may be transferred to other territory. Ted E. Felt, former state area manager and lately state organizer for the 12th and 19th congressional districts is being placed in charge of the 16th district. Rumors are also current that J. H. Walsh of Costa Mesa will be appointed as the Orange county organizer and that Herbert F. Kenny of Santa Ana will be appointed to the same position in Riverside county. Definite information is not yet obtainable but rumors seem to be well substantiated.

## OFFICERS TO SRA PAYS 175 RAISE FUND HERE TODAY

Orange County Peace Officers association last night laid preliminary plans for a benefit performance to raise funds to aid officers in carrying life insurance, it was announced today. Officers, because of the hazards of their occupation, pay high premium rates.

Police Chief George Franzen of Orange, president of the association, introduced Councilman Ernest H. Layton of Santa Ana, who brought greetings from Mayor Fred Rowland and the city council.

Harry Fink, assistant Santa Ana police chief, acted as program chairman in the place of Chief Floyd W. Howard, who was unable to attend. Entertainment included song and dance numbers by Vera Marilyn Getty and her pupils, accompanied by Janet Martin; a contralto solo by La Verne Van Wyk, accompanied by Adeline Cochems-Harrell; and an accordion duet by Miss Madeline Paxton of Santa Ana and her friend, Miss Doris Barsotti, of Fresno, who has been visiting in Santa Ana this summer.

Next meeting of the association will be a steak bake at noon, Oct. 7, in Jack Fisher park. The hour was arranged for the convenience of officers on night duty.

The association will have a joint meeting with the Orange County League of Municipalities in October at Tustin, it was announced. Each group will have a speaker to outline the particular problems of the group.

**CLUB TO MEET**  
Members of the Costa Mesa Friday Afternoon club have been urged to attend a called business meeting to be held in the clubhouse at 2 p. m. tomorrow. An executive board meeting is also scheduled at that time, club officers announced today.

Mrs. Roger Hearne of Riverside, formerly of Santa Ana, is visiting her mother, Mrs. Mayne Foman, at 605 South Birch street this week.

Mr. and Mrs. Bruce Switzer, our citizens fail to respond to their right and duty at the ballot box on election day, I do not know what form of government will be substituted for that which we at present have the opportunity to enjoy, but I do know it will no longer be a rule of the people; it will no longer be self government. If they do not vote, the people abdicate their sovereignty; and they may be entirely sure that if they relinquish it, other forces will seize it, and if they fail to govern themselves, other forces will rise up to govern them." The words of our former president seem particularly fitting at this time and the Townsends labor to create the apprehension and needed action on the part of voters to avert the catastrophe which seems to threaten.

## "WHERE DID YOU GET IT?"

Sometimes, in a friend's house, you see a particularly handsome rug or lamp, a new vacuum cleaner, an attractive chair or table. Or perhaps it's a new coat or dress, or some delicious new food-product.

You ask: "Where did you get it?"

Your friend says: "I got it at Blank's."

You don't ask: "How did you know Blank's had it?"

There is no need to ask; there is no mystery about that. You know your friend reads the advertisements in The Journal. You merely sigh enviously, and think: "I must have missed reading the ads that day."

Make it a habit to read the advertising pages of this newspaper regularly, carefully.

### TWO BILL CAN'T LAND BOMO KORAL TO PLAY ART NOW HEARS WELL

Bronzed Bill Cook, resting at his Laguna Beach hacienda, received a special delivery letter. The epistle, bearing a Santa Ana postmark, introduced two behemoths who wrote they would like to play football for the Dons this fall. Cook was invited to visit them at 615 North Sycamore.

Always on the alert for new prospects, the jaycee skipper hurriedly looked up the address. It turned out to be the county jail.

Bill learned later the football-minded pair had been registered for a two-year stay behind the bars for robbery. "You get us out of jail and we'll play for you" was the plea he received. You might keep 'em in mind for '38, Bill.

Nightball musings: Francis Conrad, ex-Star shortstop, was a visitor at the Santa Ana-Huntington Beach game. He left last night for the San Joaquin valley, where he will be employed until January.

Louie Neva had a sore arm, yet held the Stars to six scattered hits. Catcher Bomo Koral had no intention of remaining out of George Lackaye's lineup because of a swollen thumb. "I believe it's broken, but it won't keep me out of the series," he said. Each club had 11 assists, no errors in the third game of the little "world series."

They say Art Stranske, the ex-Saint fullback, is hearing well after that ear operation. The blond will try to make the Trojan varsity squad this month.

One of the Dons' new catches will be Jim Wakeland, 185-pound guard from Wichita. Halfback Carroll Joy, the passing wizard, may not be ineligible after all. Quarterback Mac Beall of the '35 Saints is definitely enrolling with the junior collegians. Wait Hendrie, slender wingman, may not return, but Fred Erdhaus, the towering pass-snatcher, has turned down an offer from Flagstaff to remain here for his second season.

Commercialization of college football has gained a stronger foothold in the East as the result of Yale university selling radio rights to six home games. A Newark station is said to have paid \$20,000 for the broadcasting privilege.

Commercial sponsorship has been scarce in the East, and even in view of Yale's action it is not likely the university's time-honored associates, Harvard or Princeton, will follow suit.

The Pacific Coast conference annually has a commercial sponsor over the air.

Outfielder Gudat Lost to Angels With Broken Leg

By the Associated Press  
Portland, San Diego and Oakland fortified their positions in the Coast league pennant race today by victories, while hard luck seriously set back Los Angeles' chances of finishing in the first division this season.

The Beavers stayed a game and a half ahead of San Diego by blanking the Angels 4-0, while the Padres were pouring it on Sacramento, 11-1.

Seattle dropped from a second-place tie with San Diego by losing to San Francisco Seals, 3-4, and the Oakland A's lost to the San Francisco Seals by winning a 10-inning encounter, 3-2.

In addition to succumbing to Bill Posedel's six-hit pitching, the Seals' lost outfielder Marvin Gudat, a .323 hitter, when he broke his leg sliding into first base. The league-leading Beavers pounced on Ray Prim and Joe Berry for 13 singles.

The luckless Senators, many of whose players have been transferred to other St. Louis Cardinal teams in recent weeks, had to sign up a San Diego sand lotter to catch when Jim Grik, made-over receiver, couldn't play. Ancient Herman Pillette was on the hill for San Diego and turned in a four-hit performance.

## Rodgers Predicts Oilers Will Win Four Straight

### FADING STARS FALL AGAIN HERE, 5-1

#### Bomo Koral's Home Run Deprives Louie Neva Of Shutout in 7th

Huntington Beach's dream of a four-straight triumph over Santa Ana in the National Nightball league's "little world series" may come true tomorrow night.

Elated over his Oilers' 5-1 win before 2000 fans here last night, Shortstop-manager Joe Rodgers of the Southern California champions predicted, "We'll wind up the series in our own park Friday."

Scoreless Five Innings  
For five innings the Stars battled their confident rivals to a scoreless draw before hitting the downward trail that led to a third defeat. They lost the first two games, 6-0 and 5-4.

A new bit of strategy—that of purposely walking Louie (The Great) Neva—clicked perfectly the first two times, but backfired in a hope-shattering sixth.

Three-Run Rally  
George Murray, Oiler third-sacker, opened a three-run rally with a single to center. Louie Neva was next up, so Coates walked him. That would have been all right, but the 1935 champions began hitting the ball hard. Paul Neva singled to center to score Murray, and Manager Rodgers planted a sizzling single into right field to score the Neva brothers.

Ed Daley's one-try swat to center sent Rodgers to third. Bob Smith grounded to George Proby at second for the first out. Pete Osborn rolled a grounder to the pitcher's box, Coates whipping the ball to first-baseman Nan Coates, who threw for the plate in an attempt to catch Rodgers. Rodgers reached time in time, but Koral tagged him and Unrue Shorty Smith, the called the Oiler pilot out for failing to touch the plate—a snappy double play.

Laboring with a sore arm, Neva nevertheless limited the Stars to six scattered hits.

Koral Raps Homer  
The mistake of pitching a slowball on a belated windup, cost the Russian a shut-out in the seventh, when Koral of the Stars drove a home run into deep center. Bomo circled the bags before Orv Schuchardt could retrieve the ball, which rolled to the bleachers and bounced away.

Coates kept up his string of strikeouts with eight, but the Oilers bunched nine hits on him—and that meant victory. They strengthened a 3-1 lead in the eighth when Louie Neva, apparently tired of walking, drove a bad ball for a single to short. He scored immediately on Brother Paul's blistering double down the third-base line. Paul gained third on Rodgers' fly to center, and scored on Ed Daley's grounder to second.

### Bill McKinley, Oiler Ace, Fights for Life

A victim of Bright's disease, Bill McKinley of the Huntington Beach Oilers is confined at the home of a sister, 3232 Fifteenth street, Long Beach.

He has begun what his manager, Joe Rodgers, describes as a "game fight for life."

McKinley, who was on the sidelines for the first Star-Oiler contest here last Friday night, was at first reported to be out of action with the recurrence of

a minor rupture, an ailment that bothered him early in the season.

A dangerous hitter and a smooth fielder, the former Long Beach High school athlete is regarded as one of the most popular athletes in nightball. He was runner-up to Al Rebohn of Santa Ana for the 1935 batting championship, and hovered around the .400 mark all during the current season.

### PROS RESPECT COLLEGIANS Lion Gridmen Extended, 7-7

By WILLIAM WEEKES  
Associated Press Sports Writer

CHICAGO.—The prestige of professional football, defended by the National league champion Detroit Lions, was still intact today—but badly bent by an inspired band of former college stars.

Last night before a throng of 76,361 thrilled spectators in Soldier field, the Lions, led by their ace, Earl (Dutch) Clark, had to stage a desperate last period drive to earn a 7-to-7 tie with all stars of 1936, who as seniors, helped make 1936 college gridiron history.

Stars Hold Edge  
The all-stars, rated as the greatest group of the kind ever brought together, gave the crowd its first big thrill in the second period of the third annual battle, by scoring the first touchdown of the series. They outplayed the professional titleholders throughout the first three periods, and appeared to have an upset triumph over their more experienced foes in hand.

A break, heartbreaking fumble by one of the heroes of the all star drive, Alphonse (Tuffy) Leemans of George Washington university, early in the final session, gave the Lions an opening, and with Clark setting the tempo, the tying score was not long in coming.

Leemans, a rugged, tireless back, fumbled on the all-star 29-yard line after making a great return of one of Bill Shepherd's kicks. Tom Hupke, onetime star guard at the University of Alabama, re-

covered and the professionals were off. Ernie Caddell ripped through the collegian line for 12 yards, and in three more plays Clark smashed to the eight. Then, as the youngsters concentrated on him, Clark faked a shot at the line, whirled and handed the ball to Caddell, who darted wide around his own left end and over the goal line.

Clark drop-kicked the extra point.

The all stars started their first serious drive early in the second period. Leemans tossed a pass to Frank (Butch) Loeb of Purdue, for 20 yards, and on the next play, Vernal Le Voir took the ball from a Minnesota teammate, Sheldon Beise, on a reverse and hustled the last 17 yards over the goal line. Wally Frohmort of Notre Dame, placekicked for the extra point.

Misses Droptick  
Clark missed a 35-yard dropkick attempt in the first period, and a few minutes later, Glen Presnell, Lion halfback, failed on a place-kick try from 25 yards out.

The all stars had a 9 to 5 advantage in first downs, and out-gained the pros, 184 yards to 128, by all methods. The Lions completed only one forward pass out of five, while the all stars connected on four out of eight.

The spectacle, delayed a day by rain, drew a gross gate of \$130,146, the profits from which will be turned over to Chicago charities.

### SIXTEEN LETTERMEN FORM OHIO STATE'S NUCLEUS

Note: This is the third of a series dealing with the top players in major college football teams. Tomorrow: Southern Methodist.

By FRITZ HOWELL  
Associated Press Sports Writer  
COLUMBUS, O., (AP)—On the shoulders of a flock of sophomores rest Ohio State's hopes of repeating this year as football co-champions of the Western conference.

The first-year talent will provide the replacements on Coach Francis A. Schmidt's squad which opens practice next Wednesday in preparation for what Buckeye athletic officials term "the toughest schedule in Ohio's history."

Sixteen lettermen, at least one for every position, make up the nucleus of the tall Texan's team, which once again will play "high, wide-open and handsome" offensive football.

Brilliant Record  
That style of game has carried the Bucks to 14 victories in 16 starts since Schmidt took over the reins two years ago, only Illinois and Notre Dame being able to trip the Ohioans.

Graduation cost Ohio 18 years of varsity backfield experience, a half-dozen three-lettermen going out via the diploma route and it is in the ball-toting department

that Schmidt expects his greatest trouble.

The line stacks up as one of the best in Ohio annals, despite the loss of Capt. Gomer Jones and seven other varsity stalwarts.

Only six lettermen are available for backfield berths, and most of them saw but scattered service last year. The returning wearers of the "O" in the backfield are "Jumping Joe" Williams, Frank Antenucci, Johnny Bettridge, William Henry Harrison (Tippy) Dye, Nick Wasylik and Jim McDonald.

Invite 64 to Drill  
"I've invited 64 players out for practice next Wednesday," Schmidt said. "We know that some of them will be of no value, but we hope to uncover a few good boys to take the place of some of the fine ones we lost. The outlook isn't any too 'prosperous,' for we meet Pittsburgh in the second game, and Pitt looks good for a bid for the national championship. I don't see how we can get by Pitt on such short notice."

The Ohio schedule:  
Oct. 3—New York university; Oct. 10, Pittsburgh; Oct. 17, at Northwestern; Oct. 24, Indiana; Oct. 31, at Notre Dame; Nov. 7, Chicago; Nov. 14, at Illinois; Nov. 21, Michigan.

### Injury to Whitehead Leads to 4-3 Defeat of Giants

By SID FEDER  
Associated Press Sports Writer

Social note.—Lady Luck has given Bill Terry the cold shoulder. After making Colonel William Whitehead's best friend for weeks, she turned her back on him yesterday for the first time since his astonishing Giants started their drive to the top of the National league heap, and just about handed the Cardinals a 4-3 win over the New Yorkers, cutting their lead to three games.

For more than a month the Giants haven't run up against a single bad break. But in the opener of the important two-game set with the gas house gang, the shoe was on the other foot. With the out in front 3-2 in the seventh, the Giants out in front 3-2 in the seventh inning, Second-Sacker Burgess Whitehead collided with young Stu Martin and suffered a deep cut under his right eye.

Terry had to call on the erratic fielding Mark Koenig for replacement. The first two fielding chances Koenig had he booted. And the Cards cashed in on the errors for three runs and the ball game.

With the Cubs also winning yesterday—downing the Dodgers 4-0 behind Tex Carleton's seven-hit pitching—the red-hot race still remained a three-way fight down the stretch. The rest of the league was rained out.

The Yankees also had their league lead shaved somewhat—but not to any dangerous extent. Johnny Allen, the Yank castoff, came back with the Cleveland Indians and held the homicide squad to three hits for 10 innings, turning in a 4-3 win on the strength of Earl Averill's game-clinching homer in the extra frame. The defeat shortened the Yanks' pace-setting margin to 16 games.

The Browns turned on the heat to out-slug the Athletics, 13-11. While the White Sox and Red Sox were rained out at Boston, the Tigers got some fine pitching from Jake Wade and Vic Sorrell, who, between them, held the Senators to three hits for a 3-2 victory.

### NO-HIT GAME HURLED BY HODGSON

#### Irvine's County Champs Blank Santa Barbara In Tourney, 5 to 0

Ray Hodgson's pitching magic may carry Irvine's County league champions to the heights of the Southern California softball tournament.

He turned in a no-hitter, his fourth of the season, to pace Ernie Lagier's nine to a 5-0 shutout over Santa Barbara's highly-touted entry before 1500 fans at Sawtelle last night.

Another county representative, the Orange 20-30 club, was eliminated by the Three G's, 6 to 5, to leave Joe's Grocers, Santa Ana City league champions, and Irvine the only men's clubs carrying the colors of this district.

Larry Owens' Grocers, who eliminated South Pasadena, 10-5, Tuesday, continue their title quest against the Angelus Furniture company and its brilliant twirler, Contreras, at Crawford field in Alhambra at 8 o'clock tonight.

The Lionettes, Oscar Stutheit's girls' team sponsored by the Orange Lions, made their debut against the South Pasadena Amazons at Belvedere Gardens at 9 o'clock tonight.

Irvine garnered nine hits to reward Hodgson for his spectacular pitching. Ed Wynn, the comedian, who did the announcing, remarked he thought Irvine was one of the classiest softball teams he had ever seen.

The County league champions went on a four-run spree in the sixth. Dwight Ahern led off with a triple to center, George Avila hit to shortstop, and was safe when an unsuccessful play was made for Ahern, who raced back to third. Horace Sears doubled to deep center, scoring Ahern and Avila. Singles by Louie Kuhn and Hugh Salisbury accounted for the other pair.

Ahern and Avila collected their second hits in the seventh, and Horace Sears belted a long fly to center, Ahern scoring after the catch for Irvine's fifth run. Salisbury had a perfect night, with a walk, double and single. Chano Avila, third-baseman, went to the screen for the most sensational catch of the evening. Irvine pulled out of a hole in the second with a brilliant double, Kuhn to Avila to Lagier.

The Anaheim buzz-saw, Don Benzor, uncrowned Orange county lightweight champion, seeks revenge in a night with Joe Ybarra, of San Bernardino. Ybarra also has beaten Willie Fields and Babyface Shaw.

Santa Ana's Raoul Solis, former Golden Gloves champ who lost a decision by a hair to Benzor for the county lightweight "championship," will face Everett (Telephone) Jure, cagey Redlands boy.

Adding a note of color to the evening's fun, Cloten Berry will caper about the ring in his uproarious style—unless rugged Paul Saucedo, Anaheim puncher, knocks him sillier than usual. Berry, always a laugh-maker, is a fair boxer and looks good even while losing.

Rosales On Card  
Baby Rosales, Placentia, will have his hands full in a fight with Joe O'Brien, Redlands, who holds the Little Creek CCC title at 120 pounds.

Young Benny Garcia, Santa Ana, takes on Whittier's Young Lacy in an 118-pound event, and Tino Munoz, dynamic Anaheim fighter, tangles with Eddie Baker, Ontario, at 155 pounds.

A feature of the program will have Promoter Singleton drawing lots to determine the order of the bouts.

Levin-Cantonwine Supporting Bouts Completed Here

The supporting card for Monday night's rematch between Champion Dave Levin and Howard (Hamman) Cantonwine will show Sammy Stein, the great Jewish wrestler, vs. Herb Freeman, Mike Strelch vs. the Giant Masquerader, and Juan Del Rio vs. Bob Coleman, at the Orange County Athletic club.

DAVE LEVIN WHIPS GUS SONNENBERG  
LOS ANGELES (AP)—Dave Levin still ruled California heavyweight wrestling today, but Gus Sonnenberg blamed it all on his own bad marksmanship and Referee Don McDonald's bulk.

With the fall now divided at one apiece, Sonnenberg unloaded a flying tackle

Here and There With  
The Journal's  
Rambling County Editor

By I. N. (BRICK) GAINES

ORDINARILY, this department has great faith in human nature. Speak out, in a loud voice, that white is black, and I'll believe it. But, when reports of a "jeep" imprisoned at Balboa filtered in from the beach territory, I was doubtful. Not that I'd call anyone a prevaricator, but—

And, wishing to give readers the best of service, I investigated. Tales of a horrible monster that sent folks screaming didn't throw any fear into this department—much. But I investigated, anyway. And there is a "jeep."

He's in a cage, on the front steps of the Balboa pavilion. It's not a very strong cage, either.

From what I remember from my nature study in school, he's not an iguana. Tail's too long. He has a fearful face. Wattles like a turkey. Big bumps and bulges appear here and there about his neck and ears.

He's about eight inches across. Body's about two feet long. Tail four feet long. Huge powerful hind legs, thoroughly equipped with bird-like claws. His front's are smaller, but also carry curving claws on long, ugly fingers. "Jeep" is a sort of rattlesnake-like color on his scaly body. His tail is equally divided in dark and light areas. Stripes. And on his back are two-inch long spines, that wave in the wind. Oh, yes, he's a fearful beast, and if I was a drinking man, I'd swear off for life!

"Jeep" was discovered near where steam shovels are excavating for the new overhead crossing at The Arches, near Newport. Theory is that he was routed out of some subterranean lair by the digging. He seems angry about the interruption in his customary mode of life, because he just stands in his cage and leers. And believe me, folks, he's one of the best leersers in captivity. After he'd stared at me for awhile, I wanted to say a prayer—"Now I leer me down to jeep!"

And some village wit has written a "knock-knock" across the top of his cage. "Who's there? Jeep! Jeep who? Jeep your hands off this cage!"

I think, personally, that's why the critter leers!

Up to now, I thought cows were the chief industry of Costa Mesa, closely followed by goats. But I was wrong.

It's sweet potatoes! Drive down almost any of the back streets—Orange avenue, Santa Ana avenue—any of those, and you're virtually surrounded by sweet potato patches. And where there aren't patches, you'll find goats and cows. With a few million ducks and geese thrown in for good measure.

Folks seem to be able to grow almost anything down there, too. Berries by the bushel. Corn—lots of it. Squash, pumpkins, beans—Gosh, I'm getting hungry! Guess I'll go home for supper!

I think I've discovered a new organization.

It's a breakfast club. An irritated outsider claimed yesterday the newly-formed doughnut-grawlers' group should be called the Barnacle Club—barnacles on the ship of progress, he contended.

But that's neither here, there, or any place else. The main reason for the meetings, which are held in a Placencia cafe from 7:30 to 8 o'clock every morning except Sunday, is to talk about fishing.

But this same irritated individual said the members have a funny attitude toward all things piscatorial. When brought before the meeting, a monstrous denizen of the deep, weighing 23 pounds and measuring 7 feet three inches in length, will shrink to a mere two pounds, and when escaping from the shivering gaze of the members, will measure something less than one foot.

Bunch of cynics, that's what they are. I wouldn't think of wishing their boat would cynic, but they'd better be careful, or something'll happen to 'em!

Incidentally, a certain admiral who won't let me put his name in the paper—or he won't take me boat riding any more—is one of the members. I also saw Harry Easton, citrus exchange official, heading for the meeting yesterday morning. Also Scotty Muir and Marshall Steen. Shame on 'em!

## CRAIG TALKS TO CLUB AT ORANGE

ORANGE.—"It is right for people to kick about taxes and govern, but do not stop there. Get out and vote," Assemblyman Craig, Brea, told members of the Orange Lions club at their weekly meeting here yesterday.

Only four persons out of every 10 voted at the recent primary election, Craig added, pointing out that votes are the only way to keep a democratic government operating, and if residents do not display interest, none can be expected from officials elected.

He continued with the criticism that there are too many "crazy" plans today, with some already ready to listen to them. The same yardstick that is used in business is the measure of good government, he added, and if we adopt unsound methods of government, someone will have to pay.

Craig urged the Lions as a group to get out at least a 70 per cent vote in the next election. "No matter how you vote, be sure to vote," he said. The merits of each tax and referendum measure to come before the people in November should be carefully studied, he added. He concluded by advising the public to uphold officials unless the officials are proven to be crooked. "There are no more crooks in public places than in private places," he said.

Roy Edwards was program chairman, and reports were given on the Lions sponsored band and ball team by Gordon X. Richmond, Carl Schroeder and Herbert Deming. The president, W. S. Lentz, gave a report of the Lions' International, held at Atlantic City.

## HOUSE-PARTY MURDER

On these gloves is?" he asked. "Miss Andrews had evidently been prepared by Rickey, for she showed no surprise, merely took the gloves and held them to her nose. She had changed from her white uniform into an orange-colored wool dress, and Joan noticed for the first time how pretty she was, or dark hair seemed to catch the light from the dancing flames, and her face was delicately chiseled. Only her eyes, which were a little too close together, held a brooding expression that Joan found uncomfortable.

"Well, Miss Andrews?" There was an edge of impatience in William's voice. "I believe that these gloves were worn by the murderer, that he upset the glass and, in wiping up the mess, stained the gloves."

"Why wipe it up at all?" William demanded. "For fear of staining his clothes. Probably I wasn't present, so I can't tell you."

"So you weren't there?" William mocked. "Well, neither was I. I didn't say you were. I said your gloves were."

"Thank you, Reilly, for being so kind as to relieve me of my innocence. I personally don't feel so sure about anything," Miss Andrews, William addressed the nurse so abruptly that she was startled, "you had already decided what you were going to say about this stain before you even saw the gloves, hadn't you?"

The nurse flushed a bright red. "No."

"Oh, but you had." "I thought it might be that," she faltered. "And when I saw them I was pretty sure."

"I'm pretty sure because you had already formed your opinion," William laughed abruptly. "It would seem as though several people would be pleased to find me guilty."

"I am not accusing you or anyone," Timothy said coolly, "but the fact remains that the gloves were found in the cook's valise and have been stained by some medicine or disinfectant."

"The fact also remains," William said slowly, "that one of us"—he paused dramatically—"that one of us—or at least someone in this house—is a murderer."

"We knew that long ago," Stephen ventured, "but wouldn't it help if we found a motive?"

"Motive?" William sounded strangely pleased. "There are several motives."

No one spoke. The silence, tense and embarrassing, prolonged itself.

## ANSWERS ARE SOUGHT TO DROUGHT

Picture of Great 1936 Dry Spell Anything But Heartening

By EDWIN B. HAARINSON  
WASHINGTON. (AP)—Precipitating a Roosevelt-Landon meeting on ground termed non-political by both, a search for answers to the "worst drought in climatological history" again centered national interest today.

The great dry spell of 1936, officially labeled the "worst" by the weather bureau in August but since alleviated in some sections by rain, brought the President, the Republican presidential nominee and six other governors to a Des Moines conference table. A survey of the magnitude of the present problem for which they seek an answer today showed:

**Here's the Picture**  
A total of 1,092 counties in 23 states on the federal emergency list.

A sunburned corn crop, officially estimated at more than 800,000,000 bushels under that of last year.

An army of farmers, reported at more than 116,000 by WPA, working on emergency relief projects.

An initial expenditure of around \$15,000,000 by three drought relief agencies, with tens of millions more in prospect.

**Final Cost in Doubt**  
None here today would even guess officially at the total and final cost to the nation of the disruption brought about by too much of one element of life, heat from the sun, and too little of another, moisture.

Nor has any one "answer" been generally agreed upon to offset the effects of the current drought and guard against those of the future.

President Roosevelt, returning from Salt Lake City for the party, had with him the report of his special drought committee, drawn after a tour through the heart of the drought land.

**Committee's Plan**  
The committee, headed by Morris L. Cooke, Rural Electrification administrator, recommended among other things the construction of thousands of small dams; the removal of submarginal lands from commercial production; soil conserving practices, such as re-grassing; flood irrigation; long term credit for farmers, and crop insurance.

Governor Landon has been represented by some of his advisors as likely to advocate a federal-state plan of water conservation. This plan was urged by him during the 1934 drought.

At that time, he urged detailed engineering surveys of "very small tributaries," looking toward the making of small ponds, reservoirs on creeks, and large lakes when possible.

**The 1934 Situation**  
Speculation already has arisen here over whether the federal emergency expenditures in the present drought might not be considerably under those of 1934.

The dry spell of that year began earlier, and congress, before its summer recess, appropriated \$525,000,000 as a special drought fund.

It was allocated as follows: Federal Emergency Relief administration, \$225,500,512; agricultural relief \$32,800,000; emergency conservation work, \$58,390,000; Farm Credit administration, \$146,785,000; and Resettlement administration, \$3,389,487.

The three chief drought relief agencies—the PWA, the AAA and the Resettlement administration—thus far have reported expenditures that are only a fraction of these figures.

**Little Cattle Buying**  
The drought committee of the agriculture department has set aside \$5,000,000 for emergency purchase of cattle from drought-stricken areas, but only a small part of this has been expended for buying about 3,000 head.

WPA estimated recently that something over \$10,000,000 had been spent to date to put farmers on payrolls. After the recent rains, however, Harry Hopkins, WPA head, reported that job applications had dropped from 5,000 weekly to about 2,500. WPA has estimated it can care for a maximum of 150,000 farmers up to January, at a cost of \$30,000,000.

**EARLY ANAHEIM DAYS ON KVOE**

Residents of Orange county and particularly those in Anaheim, will find much of interest in this week's WPA historical research project broadcast to be made from KVOE at 5:30 this evening, as it will comprise a detailed discussion of Anaheim's "Chinatown" and of the great real estate boom of the eighties.

To fill the need for cheap labor and to aid in the cultivation of vineyards, numerous Chinese came to Anaheim a few years after it was established by the German settlers. Many weird and interesting stories will be told in this evening's broadcast about the activities of the Chinese, and several of the old landmarks, still remaining, will be described.

Those taking part in the broadcast are Mrs. Gladys Ashby, director of the project; Miss Lulu Walker, Mrs. Marion Minor, Mrs. Elsie Smith and Fred Cross. The historical broadcasts are scheduled every Thursday evening at the same hour, 5:30.

At a London auction in 1932, a lock of Napoleon's hair brought \$5.25.

## VOTERS OF COUNTY CHEAT THEMSELVES ON ELECTION COSTS

### 'Y' TO HONOR FOUNDER OF MOVEMENT

Will Observe Birthday Of Originator Here On October 11

Observing the 115th anniversary of the birth of George Williams, founder of the Young Men's Christian association, more than 1,000,000 "Y" members will observe Oct. 11 as Founder's day, it was announced today by General Secretary R. C. Smedley, reporting receipt of advance information from the national headquarters of the movement.

It was in 1844, said Smedley, that George Williams, a young clerk in a dry goods store in London, brought together a group of his fellow clerks in an effort to improve their moral and mental condition. From this small beginning in service there has grown up the vast organization of the Y. M. C. A. of today, with its branches in all parts of the world in service to men and boys.

In observing Founder's day this year, special attention is to be given to the "founders of the future," the boys and young men who will have to assume leadership in the coming years. A large part of the program will be carried by the boys of the local organizations.

In Santa Ana, the observance of the day will be somewhat restricted in order to avoid any conflict with Community Chest activities. The Chest campaign being planned for about that time. But plans will be made to bring the anniversary prominently before the public so as to interpret its aims and service both locally and in general.

The Y. M. C. A. is now 92 years old in its career of service, and the anniversary gains interest by reason of age and experience. Besides local celebrations there will be nation-wide radio broadcasts by eminent religious and educational leaders, and many related activities in honor of the history and the achievements of the organization.

### TOASTMASTERS TALK TAXES

Taxes furnished the theme for speeches at last night's meeting of Toastmasters Club, Smedley chapter No. 1. Without any previous arrangement it appeared that all of the speakers had chosen to discuss taxes, and their presentations from their different viewpoints gave an unusual combination.

Eugene Kruger took first place with his study on the cost of taxes to the individual citizen. Henry Bosch discussed the single tax proposal which has been eliminated from this year's ballot, explaining that it will appear again next year, since there is a permanent fund provided for the purpose. R. C. Smedley talked on "Who Pays the Taxes?" developing the idea that every person who works or spends it eventually caught in the net of taxation. James Anderson discussed the proposal to tax chain stores and the complications which would follow such action.

George DeRouhae served as toastmaster and J. Lee Hewitt was general critic. Eugene Kruger was inducted as president, succeeding DeRouhae, who has headed the club for the past six months.

"For God's sake come home to Mother and Dad," Mrs. Brite wrote in an appeal to her sons. "The sheriff has promised a square deal." (Associated Press Photo)

### Bourbons Say Words Won't Feed People; Republicans Lament Lack of U. S. Goods

The Journal conducts this forum so that its readers may receive full and authoritative information upon the issues of the presidential campaign. E. Z. McKinney are in charge of that party's contributions. Howard Irwin, head of the Republican county central committee, and Dr. W. E. Dixon are contributing their party's articles.—Editor's note.

#### BY THE DEMOCRATS

The Republican platform, the literature and the speeches leave a sense of want. By clever stage management, the country was kept in suspense about the speech of acceptance of the nomination that Mr. Landon would make. We all hoped to learn from that something about how he stood, and what he proposed. But again we were disappointed. We read from the Los Angeles Examiner, a William Randolph Hearst publication, an editorial which in an effort to praise Landon, said that his speech was remarkable for many excellent things. He says: "There is nothing in the governor's speech of acceptance about Economic Royalists, entrenched Greed, Economic Tyranny, the Dynastic Scheme of Things, Privileged Prices, Well Stocked Clubs, the New Despotism, Tool of the New Economic Royalty, Industrial Dictatorship, Surling Forward, Rendezvous With Destiny, Ill Will and Intolerance."

#### Must Solve Problems

That is just the trouble, you cannot correct a problem by ignoring it. These things and conditions, economic royalties, entrenched greed, industrial dictatorship, etc., exist and are here, they must be recognized as existing. They present problems that must be solved if this nation is to endure as a free people. True, the speech contained many pleasing and high-sounding platitudes, generous references to America and the constitution, but we learned from the bitter experience of the Coolidge-Hoover era that platitudes don't feed hungry people, or redeem foreclosed farms, or prevent stock jobbing, or keep banks open. (To be continued tomorrow).

### S. D. Fair Wants To Keep Nudists

SAN DIEGO. (AP)—San Diego's exposition wants to keep its nudist colony. Officials had a temporary restraining order today preventing concessionaires from dismantling the Zoro Garden colony, abandoned Aug. 25.

### Says Oklahoma 'Facing Famine'

OKLAHOMA CITY. (AP)—Senator Elmer Thomas has asked for immediate drought relief for Oklahoma because, he said, "we are facing a famine." Thomas suggested an increase in the WPA quota, enabling W. S. Key, state WPA director, to put all CCC applicants to work, and a grant of a separate fund to be administered by Gov. E. W. Marland to aid in overcoming delay.

### CLAIM FILED BY WOUNDED DRIVER

Victim in Kidnap Case Asks Recompense for His Injuries

Echoes of a hold-up staged several months ago in Laguna canyon in which Harold (Bud) Marshall, taxi driver, was robbed and shot by two youthful bandits, were heard here today with the reported filing of a claim with the State Industrial Accident commission for compensation for injuries received.

H. R. Stephens, owner of the Courtney Taxi Cab company, is named defendant in the case, it was reported. A hearing in the case has been set by the state commission for Sept. 15 in the city hall at Santa Ana.

Marshall's demand for an adjustment of compensation alleges he was employed, on a stated basis, by the taxi cab concern when robbed and shot by the bandits. Since the time of the holdup, Marshall has been a patient at a Santa Ana hospital. Gerald Vance and Edgar De Bord, convicted bandits, are now serving life sentences in the state prison for their crime.

### Two Injured in Automobile Crash

Two persons sustained slight injuries at 7 p. m. yesterday in a two-car collision at Bristol and Edinger streets, city police reported.

### WALNUT PLAN CHANGES TO BE AIRED

Proposed Amendments To Be Discussed at Berkeley Meet

A hearing will be held at Berkeley next Tuesday on proposed amendments to the marketing agreement and order for handlers of walnuts in California, Oregon and Washington. The session will begin at 9:30 a. m. in Agricultural hall on the University of California campus.

The walnut control board has proposed the amendments as a result of conferences with representatives of the industry and the A. A. A.

A saleable percentage of 75 per cent of the crop and a surplus percentage of 25 per cent for the crop year ending Aug. 31, 1937, would be established by one provision. The present percentages are 70 and 30.

Creation of two divisions covering regional production areas is proposed by another amendment. California would constitute one division, while Oregon and Washington would form the other. In years when production of one division was abnormally low, that division would be exempt from provisions of the agreement and order requiring the delivery of the surplus percentage to the control board.

The need for such a provision is brought about by the prospects for a very short crop this coming season in the Northwest.

Other provisions relate to the election of the control board, pack specifications, and the clarification of certain existing provisions.

### Labor Board to Air P-I Strike

SEATTLE. (AP)—The regional labor relations board here had before it today both sides of the Seattle Post-Intelligencer newspaper strike, which will be aired at a hearing next Tuesday.

The newspaper contended, in an answer to the American Newspaper Guild's complaint, that the board was without jurisdiction, that the Wagner labor relations act was unconstitutional, and that Frank M. Lynch, photographer, and Everhardt Armstrong, dramatic critic, were dismissed for cause.

No hope for immediate settlement of the 20-day-old strike was seen today.

### Samuel Shrewsbury, Pioneer Bee Man, Met Adventure Crossing Plains

(Men are remembered after their death for their unselfish service to their fellow men. Robert Gardner of Orange has written a series of articles about pioneers of this section, which The Journal is publishing in order to preserve the memory and deeds of outstanding characters. Today's sketch tells about Samuel Shrewsbury.—Editor.)

Crossing the plains and pioneering captures the fancy of the modern reader who curls up in a soft Morris chair under an electric light. Can you fancy the rugged pioneers with which Samuel Shrewsbury crossed the plains in 1850, stopping by a western stream? A war whoop is heard and fear grips the emigrants. Samuel was 16 when he made his first trip across the plains. He worked his way by driving an ox team for his employer.

In 1860 he made his third trip to California. He stayed because California he thought was a better place than the East. He was a pioneer bee man. He became the recognized authority on the subject. He and Judge Pleasant were the pioneers in the honey industry. He had 160 acres in the Santiago canyon where he established his apiaries. Besides his bees he was a successful rancher. He lived on his smaller ranch at Orange, where he raised alfalfa and grapes.

He was a most upright and reliable citizen. Orange county can well be proud of Samuel Shrewsbury. He was a sturdy progressive pioneer.

He married Elizabeth Shores in 1878. He was born Sept. 21, 1833. He died Oct. 3, 1901. One of his most thrilling adventures while crossing the plains was killing a white wolf in combat.

### Sharps and Flats From The Political Bandwagon

JESSE OWENS WILL STUMP FOR LONDON NEW YORK. (AP)—Jesse Owens, Olympic champion, told Rep. Joseph W. Martin, Jr., manager of the Landon-Knox campaign in the East, he would support the Republican presidential nominee and would make a speaking tour in his behalf. The famous negro athlete said he expected to go to Topeka to meet the Kansas governor.

#### UNION PARTY WILL SEEK OKLAHOMA VOTE

#### FACES KIDNAP COUNT

CALIPATRIA. (AP)—Charged with kidnapping a mother and her children from their Niland home, Willie Harris, 36-year-old Negro, faced preliminary hearing today.

#### HOPKINS BROTHERS BOTH DEMOCRATS NOW

TACOMA, Wash. (AP)—Doves of political peace cooed all over the Hopkins family mansion today as Harry L. Hopkins, Works Progress administrator, moved westward on a speaking tour. His brother, Dr. Lewis A. Hopkins of Tacoma, has turned Democrat. In place of the elaborate sarcasm which Dr. Lewis turned in Harry's direction in 1934 (when the doctor was making an unsuccessful Republican race for Pierce county corner), he extended a brotherly hand today, promising Harry not only a day or so of peace and quiet, but a vote for President Roosevelt as well. Two years ago, the brothers sparred verbally for weeks through the nation's newspapers in connection with Republican and Democratic policies.

#### WOMAN FLAYS DEBT POLICY OF ROOSEVELT

SAN FRANCISCO. (AP)—Mrs. William Evans of Glendale, attacking the San Francisco unit of the pro-American organization, said "if the debt policy of the Roosevelt administration continues another four years, the United States will face an unbearable burden of taxes or perhaps bankruptcy."

#### TOWNSEND CRITICIZES BOTH MAJOR PARTIES

LOS ANGELES. (AP)—Dr. Francis E. Townsend, founder of the \$200-a-month pension plan, criticized the Democratic and Republican parties yesterday as "no-nothings" in the unemployment situation, and predicted that the entire "dissatisfied vote" will go to Congressman William Lemke, Union party presidential candidate, at the November election. Dr. Townsend called his plan the

### EXPENSE FOR PRIMARY \$1 PER VOTE

Outlay Per Person Could Be Halved if All Cast Their Ballots

By BOB GUILD

County Auditor Bill Lambert was talking.

"What I would like to see," he said, "as a public sentiment, or whatever it is you call people who hold government jobs, is for the people to get their money's worth when they buy something from the government."

What he meant was that people pay taxes, and they pay them for things they have ordered, and he felt that the situation should be the same as that of a woman who calls up a grocery store and orders food—she has a right to think she'll get her money's worth without being there to pick it out.

People Cheat Themselves Then County Auditor Bill Lambert happened to say that it cost the people of Orange county around \$30,000 for a primary election.

So that he had to admit they hadn't gotten their money's worth. Because out of 62,833 people who could have voted, only 29,759 did. It cost the county \$1.04 for every vote cast in the election.

That wasn't getting their money's worth, because all 62,833 registered voters could have expressed themselves at the polls for the same cost—or about 50 cents a person.

When all the people pay for something that only half the people use, half the people are being mulcted, even if they do it to themselves.

Would Vote by Mail "I would like to see," County Auditor Lambert said, "an election system where the voters could mark their ballots any time during a two-weeks or so period, and then drop them in the postoffice."

"But then," he said, "I suppose we'd be lucky if 5000 people voted."

If people really wanted to vote, he went on, the costs of elections could be cut in half. The way it is, he explained, about \$4,500 has to be spent to register voters. Of this, \$3000 goes for salaries of workers sent out to persuade people to register, so they can be persuaded later on to use ballots they will pay \$1 apiece for.

#### Costs Itemized

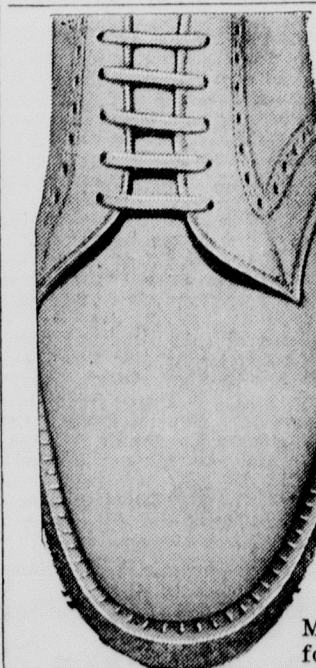

When it comes to the election itself, costs really begin to mount. For election officers, \$9,033.00; for extra labor, \$22.68; polling place expenses, \$985.41; election supplies, \$5,567.41; ballot paper and printing, \$5,807.70; the great register, \$6,096.39; publishing proclamations and notices, \$94.05; postage and express, \$1,655.60; repairing booths and ballot boxes, \$421.11; and car maintenance, \$272.50.

Added to the cost of registration, the cost of a primary election comes to \$30,945.80.

Which means 50 cents apiece for every registered voter, or \$1.04 apiece for every vote cast.

"Which," as Auditor Bill Lambert says, "means that somewhere along the line somebody is not getting his money's worth."

Mrs. Victoria G. Sota and two young children were removed to an abandoned ranch Aug. 29. Harris was arrested there.

## Fish High in Protein Content

By C. N. CHRISMAN, M. D.  
When we talk about skin eruptions due to some allergy toward certain types of food, someone is sure to bring up the subject of fish. It is quite true that there are some people and some fish that do not get along together. Fish provides too valuable a sort of food to pass it up because we do not understand its content.

The main value in fish, as in most kinds of meat, lies in the fact that it has a proportionately high protein factor. We can get this value whether the fish is fresh or preserved, as in dried or salted, or canned form.

There is an extra energy value found in the few kinds of fish that are fat, such as mackerel, herring, or salmon. The mineral element is rather low, except in regard to iodine. This very valuable mineral is found in various forms of sea food, and in the areas where marine fish are extensively used, the protective effect is noted in the control of goitre.

Fish are not expected to supply any particular amount of vitamins, except in the case of raw oysters and clams. They are credited with very satisfactory amounts of vitamin C, which is needed throughout the system for cell building.

Perhaps here is where we find the origin of the idea that fish food is brain food. The shortage of vitamin C is said by authorities to be noted first in the walls of the blood vessels. This means poor circulation, and poor appetite, also a bad skin.

Naturally, to feed the tissues properly means to stimulate the brain forces, but it is very definitely established that eating fish will make us brainier folks.

A carefully cooked whitefish or trout, salted, buttered, broiled slowly, and served with mayonnaise and lemon juice, provides a perfect meal in the opinion of thousands. And it won't cause skin rash, either.
